Car Park Drainage Works **Commencing June 2017**

In 2011 and 2013 the CRC experienced two significant floods, resulting in substantial damage to property and premises, and disruption to our services and school.

To avoid further damage, disruption and costs, we are embarking on a major scheme of flood defence works to offset the risk of future flooding. These works require major drainage installations in the grounds/car park of CRC Clontarf and will have a severe impact on our ability to use and access our external spaces for a number of months.

The building work is due to commence **June 2017** and will continue for at least **six months**.

Parking will be severely restricted
